The player that landed on the "Lucky Seven" space is the leader or signal caller for this round of our game "Seven".

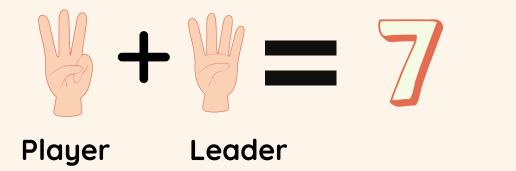

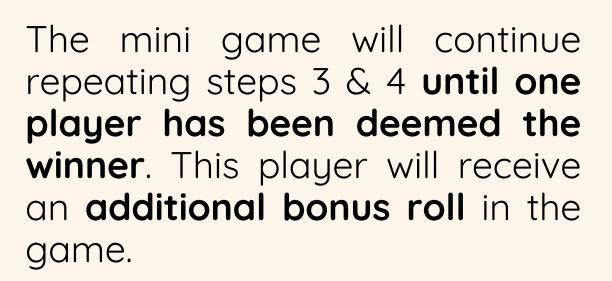

On your leaders signal or countdown both the leader and game players will **reveal** using their hand a number ranging

If the players number revealed **plus** the leaders number equals "7", **stay standing**. Otherwise, sit down and wait for the game to finish.

If there are additional ties or if no "seven" appears, reset and repeat the process until only one player is determined as the winner.
